

MEETING REPORT

Team Name: RORA

Date of Meeting: 18.05.2018

Start Time:10:00

End Time:11:30

Meeting Location: Tirane

Moderator: Ogers Ruda

Recorder: Aleks Tare

Other Members Present: Renato Saliu , Romario Balukja

Members Absent:

None

Topics Discussed:

Till now we didn't have a supplier to our database and as the professor suggested us to add the supplier which supplies the bar with products in the database we did so. We updated Activity Diagrams by adding functionalities for the supplier also we fixed the ones that professor told us. In the same time we were storing them on the xml files. After we added data flow diagram for the supplier interactions with database.

We started working with the coding part from the beginning. We discussed and decided on the design type that we were going to use and we made some changes from what we had talked in the beginning. Up to know we finished with the creation of the database for the products categories and sales and their relation with each other and also finished with the part of making orders from certain categories so this week we are going to work with the part that we will save orders on database and store them on sale reports. Also we are going to create CRUD for products categories and employees,

Time, Place, and Agenda for Next Meeting:

Date of Next Meeting: 25.05.2018
