Topics Discussed:
Firstly we reviewed the diagrams that we had finished until know and discussing if we could make further improvements to them. After we had to finish other diagrams which the professor told to us. We had to continue now with Sequence Diagrams, Data flow diagrams, Class diagrams, ER diagrams, Deployment diagrams, Collaboration diagrams, Component diagrams etc. So as a team we all started working on these diagrams meanwhile we were reviewing each others job. It was a good way to learn about all the diagram types how they are drew, which requirements and criteria we should look at in order to build them. We also discussed about coding part and everyone showed us the solution to the bugs that we faced last week. We could not find all of them but still we are searching to find every possible solution for the programming part.
